

CHERRY WINE

LEELANAU PENINSULA

WHILE MANY WINERIES CLAIM THAT THEIR CHERRY WINE TASTES LIKE CHERRY PIE, we would like to argue that our cherry wine is the closest example to liquid cherry pie you will find. Aurora's cherry wine is produced from 100% tart cherries grown by a local cherry farm specifically for cherry wine. The grower farms the cherries much the way a grape grower farms his fruit. The cherries remain on the trees until they reach a desired sugar level (brix), which typically tends to be about two to three weeks longer than commercial grade cherries. Harvesting the tart cherries with a higher brix content allows the cherries to be pressed and fermented without the need to add back any additional concentrate to sweeten the wine leaving a naturally clean, crisp, sweet tart cherry wine. We recommend pairing this wine with barbeque, chocolate desserts, as well as using it to cook with or get really creative and make cherry wine cocktails.

BLEND 80% Balaton Cherries, 20% Montmorency Cherries

ALCOHOL 10.2% | RESIDUAL SUGAR 5%
